

# *Learning Management System(LMS) Academia*

## **Project Description:**

The Learning Management System (LMS) project aimed to design and develop a comprehensive online platform to facilitate efficient learning and course management. The LMS provided an interactive and user-friendly environment for instructors to access educational resources, collaborate, and track progress

### Quality Assurance

Quality Assurance (QA) refers to the systematic processes, activities, and measures undertaken to ensure that a product or service meets or exceeds the specified requirements and expectations. It is a critical component of the overall quality management system within an organization.
